THE SHAVE WEBSITE DOCUMENTATION

INTRO

These guidelines describe the visual and verbal elements that represent The Shaves's corporate identity. This includes our name, logo and other elements such as color, type and graphics.

Sending a consistent and controlled message of who we are is essential to presenting a strong, unified image of our company.

These guidelines reflect The Shaves's commitment to quality, consistency and style.

The Shaves brand, including the logo, name, colors and identifying elements, are valuable company assets.

Each of us is responsible for protecting the company's interests by preventing unauthorized or incorrect use of the Shaves name and marks.

02

INTRODUCTION

All main files have fixed structure consisting of header (logo, main menu), content and footer. The code of the header and footer is constant. In the HTML this code is repeated in every file to maintain consistency across pages. All files within the <MAIN> tag is where the different pages design change from page to page.

COMMENTS

Every file has many comments within the HTML and JavaScript code to help explain its role section by section.

Example:

```
<!-- BEGIN LOGO -->
<div id="logo" class="arrow">
  [...]
</div>
<!-- END LOGO -->
```

STYLESHEET

Cascading Style Sheets (main.css) contains the look of website's elements. On the live site the minified version is used(main.min.css). Main.css is divided into sections - each with a relevant comment describing analogical structures in the HTML code.

Example:

```
/* =Navigation menu
----- */
#nav-menu {
  margin-right: 25px;
}
```

STYLESHEET(CONTINUED)

Main.css is the output of using Sass to compile all the css into one file. Bourbon was used to help with animations and special helper classes. Bourbon must be installed locally and can be found at this website bourbon.io

Each module for the entire site has its own file keeping each set of styles easy to edit and simple to find for changes and tweaks.

IMAGE PRELOADER

This plugin helps load all the content before the page loads to help with a smooth user experience. It will prevent the page from loading if coded incorrectly and the image contains a bad link.

An additional preloader is also setup to preload large background images found at the top of certain pages that use the class "hero."

MENU - [HTTPS://CODYHOUSE.CO/GEM/MEGA-DROPDOWN/](https://codyhouse.co/gem/mega-dropdown/)

This nav is a modified version purchased from codyhouse.co for use on this website. It has its own sass style sheet(_navDropdown.scss) and its own JavaScript settings file(nav-settings.js).

ICONS

A small set of custom icons are included with this theme. They were designed by various artist from the Noun Project and credit for each icon is given in the _fonts.scss file under the free use licence found on the nouns project website.

Additionally the fontawesome library is included and contains over 500 free icons for use. Please visit <https://fontawesome.github.io/Font-Awesome/> for more information on usage.

SECTION 2 STRUCTURE

REVOLUTION SLIDER

This paid plugin has a ton of options and styles available for use - too many to list here. A zip file of the entire downloaded purchased plugin is included that contains all the necessary help files and examples to build on top of what is already included with this theme including video support.

PARALLAX IMAGE SECTIONS

Setting up parallax sections is super easy with the skrollr plugin. Please follow this example code to ensure that everything will work. Special JavaScript code disables the parallaxing effect on mobile devices to ensure a smooth user experience.

Please give the parent container a unique ID followed by a "-skr" to allow the JavaScript to pick up this element on mobile devices. For more parallax settings please see the plugins website <https://github.com/Prinzhorn/skrollr> for examples and help files.

Recommended image size is 2560px wide and at least 1292px tall.

```
<!-- Parallax Section -->
<div id="sell-skr" class="section sv__container--fluid no-padding">
  <div class="parallax__background"
    data-center="background-position: 50% 0px;"
    data-bottom-top="background-position: 50% 300px;"
    data-top-bottom="background-position: 50% -250px;"
    style="background-image: url( images/myimage.jpg );">
    [... ] <!-- insert content here -->
  </div><!-- end parallax bg -->
</div><!-- end section -->
```

ISOTOPE GALLERY

All the galleries included in this theme make use of the isotope plugin and their settings can be found in the JavaScript file gallery-iso.js. Styling for the 4 grids included can be found in /scss/pages/_gallery.scss. Please reference the isotope plugin website for any additional customization - <http://isotope.metafizzy.co/>

TESTIMONIAL SLIDER

This module is powered by the native bootstrap slider functionality. To add additional slides all you need to do is duplicate the code of an existing slide and the slider will know it has been added once you save and reload the page.

```
<!-- item -->
<div class="item">
<div class="sv__container--md">
  <div class="col-sm-12 mobile-space-sm">
    <div class="testimonial-wrapper">
      <blockquote>
        <q>"Insert your quote here"</q>
        <cite>-By John Doe</cite>
      </blockquote>
    </div>
    <div class="testimonial-img">
      
    </div><!-- end image -->
  </div><!-- end col-12 -->
</div><!-- end container -->
</div><!-- end item -->
```

SECTION 2 STRUCTURE

PRICE PAGE

This page currently only has 3 tabs listed at the top, but you can add more if you would like. These tabs follow the bootstrap format so you will need to first add a tab changing the ID and then add the matching tab content that will show up when a user clicks the tab. Below is a sample of the code you would need to add with the ID's that will need to be unique and the data-attribute that will need to match the unique ID set on the parent tab.

```
<!-- pricing tab accordion list-->
<ul id="priceTabs" class="nav nav-tabs nav-justified white-tabs" role="tablist">

<li id="beard-mustache" role="presentation" class="tab__control">[...]</li>
<li id="shave" role="presentation" class="tab__control active">[...]</li>
<li id="haircuts" role="presentation" class="tab__control">[...]</li>
<!-- new content -->
<li id="newID" role="presentation" class="tab__control">
    <a href="#newID" role="tab" id="newID-tab" aria-controls="new-ID" aria-expanded="false">
        <div class="tab-wrapper-icons">
            <span class="tab-icon">
                <i class="icon-sv-scissors"></i>
            </span>
            <span class="text">Hair Cuts</span>
        </div>
    </a>
</li>
</ul><!-- end pricing tab accordion list-->
```

```
<!-- tab content -->
<div id="myPriceContent" class="tab-content">
    <div role="tabpanel" class="tab-pane tab-fade" id="beard" aria-labelledby="beard-tab">[...]</div>
    <div role="tabpanel" class="tab-pane tab-fade active" id="shaving" aria-labelledby="shaving-tab">[...]</div>
    <div role="tabpanel" class="tab-pane tab-fade" id="hair-cuts" aria-labelledby="haircuts-tab">[...]</div>
    <!-- new content: this id must match aria-controls in the "a" tag in the "li" item tab-->
    <!-- aria-labelledby must match the ID on the a tag in the new tab added -->
    <div role="tabpanel" class="tab-pane tab-fade" id="new-ID" aria-labelledby="newID-tab">
        <div class="tab-header">
            <div class="headline-container">
                <h3>The art of scissor</h3>
                <h4>Sub head copy for a more complete service desc</h4>
            </div>
            
        </div>
        <div class="tab__panel">
            <div class="item">
                <div class="title">
                    <h3>Full hair cut tab</h3>
                </div>
                <div class="price">
                    <p>$35.00</p>
                </div>
                <div class="desc">
                    <p>Your description here</p>
                </div>
            </div>
        </div>
    </div>
```

SECTION 2 STRUCTURE

GOOGLE MAPS

This is powered by the google maps api and a custom JavaScript file named map-settings.js. You will need to create your own api key using this link:

<https://developers.google.com/maps/signup?hl=en>

<!-- replace the script tag at the bottom of the price page with the generic google api with this tag after adding your new api key. -->
<script async defer
src="https://maps.googleapis.com/maps/api/js?key=YOUR_API_KEY&callback=initMap">
</script>

To change the location link and description box you will want to open the map-setting.js file and first get the longitude and latitude numbers of your location:

```
//replace these variables with you new numbers  
var latitude = 33.9195276,  
longitude = -84.3493754;
```

To change the location content and description/phone number scroll down further in the map-settings.js file to the office details:

```
// My Office Details  
var officeDetails = '<div id="content">'+  
'<div id="siteNotice">'+  
'</div>'+  
'<h1 id="firstHeading" class="firstHeading">The Shave</h1>'+  
'<div id="bodyContent">'+  
'<p>1150E Hammond Drive' +  
'<br>Atlanta, GA 30328'+  
'<br>Suites 400, 600 & 650</p>'+  
'<a class="tel" href="tel:333-333-3333">333-333-3333</a>'+  
'<a class="btn book-now-btn get-directions" href="" + buildLat(loc1) + "" target="_blank">Get Directions</a>' + '</div>' + '</div>';
```

FLICKITY GALLERY

This plugin is used on the gallery-details template pages and the settings for this file can be found in the flickity-settings.js file. More about the plugin settings can be found at the website <http://flickity.metafizzy.co/>

To add additional photos just add the following code or duplicate the images in the example template included in this theme. You will need one large image and one small image - the image sizes can be found in the image section of this PDF.

```
<!-- Flickity HTML init -->
<div class="gallery gallery-main">
    <!-- Flickity image -->
    <div class="gallery-cell">
        
    </div>
</div>

<!--flickity sub-nav -->
<div class="gallery-nav">
    <!-- Flickity image -->
    <div class="gallery-cell">
        <!--flickity sub-nav image-->
        
    </div>
</div>
```

SECTION 3

COLORS

Primary colors

Secondary colors

03

THE PRIMARY COLOR SYSTEM AND COLOR CODES

THE COLOR SYSTEM

Color plays an important role in Shave website template. The colors below are recommendations for various media. A palette of primary colors has been developed,

which comprise the "One Voice" color scheme. Consistent use of these colors will contribute to the cohesive and harmonious look of the website template.

PRIMARY COLOR SYSTEM

-

Explanation:

The Shave has three official colors: Yellow, Black and Gray. These colors have become a recognizable identifier for the company.

Usage:

Use them as the dominant color palette for all internal and external visual presentations of the company.

PRIMARY COLOR YELLOW

-

Web : #af8c45

PRIMARY COLOR BLACK

-

Web : #252525

SECTION 3 COLORS

The Corporate Colors

Primary Color System

Secondary Color System

THE SECONDARY COLOR SYSTEM AND COLOR CODES

ALTERNATE GREY COLORS

-

Explanation:

The Secondary set of greys are important but are not recognizable identifiers for The Shave website. These colors are used to help the look of many elements and key input areas for the user

Usage:

Use them to accent and support the primary color palette.

04

FONTS & TYPOGRAPHY

THE CORPORATE TYPOGRAPHY

Typography plays an important role in communicating an overall tone and quality. Careful use of typography reinforces our personality and ensures clarity and harmony in all web templates.

We have selected Ubuntu and New Courier, which helps inject energy and enthusiasm into the entire site, as the primary and secondary free downloadable typefaces.

PRIMARY FONT

PRIMARY FONT
MONTserrat

DESIGNER :
DALTON MAAG

-

THE FONT

The new Ubuntu Font Family was started to enable the personality of Ubuntu to be seen and felt in every menu, button and dialogue. The typeface is sans-serif, uses OpenType features and is manually hinted for clarity on desktop and mobile computing screens.

THE FONT

Source Sans Pro is a sans serif typeface created by Paul D. Hunt for Adobe Systems. It is the first open source font family from Adobe, distributed under the SIL Open Font License.

The typeface is inspired by the forms of the American Type Founders' gothics by Morris Fuller Benton with both a larger x-height and character width. It is available in six weights (Regular, ExtraLight, Light, Semibold, Bold, Black) in upright and italic styles.

TYPOGRAPHY AND TEXT HIERARCHY

Typographic hierarchy is another form of visual hierarchy, a sub-hierarchy per se in an overall design project. Typographic hierarchy presents lettering so that the most important words are

displayed with the most impact so users can scan text for key information. Typographic hierarchy creates contrast between elements. Here are some of the most common techniques for The Shave layouts.

THE GRID

05

THE PRIMARY GRID

12-COL GRID

This grid is based on the 12-column grid that comes with bootstrap. It has 5 main breakpoints. The grid also comes with 3 main container classes that have a max widths

depending on the screen size in order to keep the layout centred. They are all found in the `_base.scss` file under the class: `sv__container`

06

IMAGES REQUIREMENTS

WIDTH AND HEIGHT SIZES

For each template a specific image size is required for optimal design and layout. This chapter will outline what each size of image should be used in every module in this template. If you decide to

change the image dimensions there is no guarantee that the new size will break the page layout or not. Please optimize each images file size for the best performance on the web.

FIND YOUR STYLE

The image is a composite of two parts. On the left, a large photograph shows a man from the side, facing right. He has dark hair slicked back and a full, dark beard. He is wearing a light-colored, plaid button-down shirt under a grey cardigan. On the right, there is a dark, rectangular interface designed to look like a mobile phone screen. At the top, it says "FIND YOUR STYLE" and "HAIR CUTS". Below this are three icons: a wavy line, a pair of scissors, and a comb. Underneath the icons, the text "A REAL HAIR CUT" is displayed, followed by a short paragraph of placeholder text: "Lorem ipsum dolor sit amet, consectetur adipisicing elit. Sapiente quasi ad, deleniti voluptas hic repudiandae saepe expedita dolore modi." At the bottom of the interface, there is a button labeled "SHOW ME THE GALLERY" with a right-pointing arrow.

GALLERY SLIDER

The Lumberjack Style

\$45.00

This cut was inspired by Bill and Ted's Excellent Adventure. It embodies the free spirit of a horse running through the sandy beaches etc. Introducing Playdium, the digital jukebox that delivers a new kind of entertainment experience.
